PROFESSIONAL EXPERIENCE

ELIM5 Inc. - Full Stack Developer (Brantford, Ontario , Canada) (Internship)   NOV 2024 - FEB 2025

- Designed and implemented a seamless integration between Mautic and OpenPhone, amplifying marketing automation capabilities and streamlining post-cold-call contact management.
- Architected a MERN stack image search dashboard leveraging AWS Rekognition, enabling efficient text-based search across 500+ images.
- Revamped the Elim5. website for improved user experience and performance, implementing WCAG 2.1 compliance (e.g., ARIA labels, contrast ratios), improving accessibility for all users.
- Spearheaded a comprehensive UI/UX redesign for Elim5 Client's webpages, significantly enhancing user engagement and data visualization by introducing intuitive categorization, infinite scrolling, and pagination systems to streamline complex data sets
- Implemented AI-powered chatbot functionality within company's internal software utilizing OpenAI API integration.

VideoForm - Full Stack Developer (Hyderabad , India)   MAY 2021 - DEC 2022

- Designed and implemented a scalable video upload and streaming system using React, Node.js, and AWS, featuring multi-part uploads, adaptive bitrate transcoding, CloudFront CDN caching, and server-side thumbnail generation, resulting in a 40% reduction in latency for global users.
- Architected and built an embeddable JavaScript chatbot in websites enabling users to provide feedback through video recordings, screen sharing, or video uploads, leveraging JavaScript expertise to deliver a seamless user experience.
- Increased customer acquisition by 50% by rebuilding the analytics dashboard with TypeScript, reducing runtime errors by 40%.
- Achieved 90% test coverage using Jest for frontend unit testing.
- Designed and developed an integrated email module, enabling seamless bulk email campaigns through CRM synchronization

GreyMetrics - Front-End Web Developer (Hyderabad , India)   JAN 2019 -DEC 2020

- Developed 25+ integrations for data retrieval and automated reporting in a JavaScript-based web application using Node.js, Express.js, Angular.js, and MongoDB.
- Collaborated with the Marketing and Development teams to define product requirements and roadmap.
- Designed and implemented intuitive UI interfaces that enhanced user experience by reducing navigation time by 30%.
- Decreased the loading time of the web application by more than 80% by optimzing and restructuring the application.
- Developed and launched a comprehensive Team Member Portal, enhancing communication, collaboration, and resource accessibility for all team members.

Aquo Digital - Front-End Web Developer (Hyderabad , India)   AUG 2018 - JAN 2019

- Led development, testing, and deployment of a dynamic e-commerce website (Vijaya Diagnostic) with an intuitive admin panel for client content management .
- Led client consultations to translate business requirements into scalable web solutions, ensuring 100% client satisfaction.
- Created a Custom 50-page website for driver training courses (Dubai Driving Center)
